Membership of Professional Institutions

Institution of Civil Engineers (UK) (M.I.C.E.)

Chartered Engineer

Experience and fields of work

Ian spent 18 years working as a contractor generally working on heavy foundation projects such as steel plants and coal handling facilities.

Since specializing in Commercial Consulting, Ian has been involved in the promotion or defense of a great many claims and has acted as expert witness in a large number of disputes and arbitrations.

Ian has specialised in acceleration and disruption claims.

Specializing in

Heavy civil engineering construction, bulk earthworks contracts including opencast mining, underground construction and tunneling contracts, infrastructure projects including road, rail construction and pipeline contracts, petrochemical and paper manufacture plants, water and sewage treatment processing plants, power station and related energy plant contracts and engineering and structural steel construction works.

Dispute resolution experience

Ian has been appointed as an Adjudicator on a number of disputes. Ian has been appointed to:

- the ICE-SA panel of NEC adjudicators,
- the CIDB panel of adjudicators,
- the Association of Arbitrators adjudicators panel,
- the SAICE adjudicators panel
- the SAACA adjudicators panel, and
- the FIDIC President List of Adjudicators
